

Submitter: Jana Starr  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

I oppose SB348 and the 64 page amendment recently submitted. The 64 page amendment proposes legislation requiring a permit to purchase a firearm. When the constitution of the United States, 2nd amendment states “ A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.”, how is proposed legislation to require a permit to purchase firearm constitutional? How does requiring permit for a firearm not infringing on the right of the people to bear arms? As it is well documented in history, tyrants are always eager to remove the people’s right to bear arms, eager to disarm the people so they are defenseless against the whim of powerful tyrants. A government who works to disarm the people is a government looking to control and oppress the people. I oppose this bill and it’s amendment; and any efforts Oregon legislatures make to infringe on the right of the people to bear arms. Please stop this bill and its amendment.
