

Submitter: Marc Williamson
On Behalf Of: Washington County Fly Fishers
Committee: House Committee On Judiciary
Measure: HB3390

I am a sportsman and have lived in Oregon all of my life. I have hunted birds and small rodents for over 40 years. This bill will cripple. Anglers and the shops that supply fur for fly tying. Having originally found Oregon to be a conservative state and now the metro is so liberal actually turns my stomach and make mw want to move to another state that has a conservative bent.

Regarding this stupid bill I totally oppose it! I lived in Eastern Oregon where we hunted squirrels and par boiled them and eat them.

We fly fishers would have to go out of state and order all materials to continue our sport.

Fly shops would be crippled to not be able to get materials we need. It will put another small business in Oregon out of business!

I totally oppose this bill!
