

Submitter: William Koertje
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

1. Oregon does not have resources to implement M114 so the system cannot handle what they are trying to do.
2. Bruen decision created a new standard to determine 2A constitutionality.

3. State regulations negatively affect women and minorities most.
4. Cost of permit-to-purchase increased from \$65 to \$150. No money, no 2A rights.
5. None of this does anything to make us safer. Criminals are criminals because they never obey the law. Therefore, "gun/violence" control will control us law abiding citizens and not reduce crime.
6. This new law will be challenged and end up in court.
7. SB 348 backdated to 12/8/2022 to criminalize any high-capacity magazines purchased since 12/8/22.

Remember that the 2nd Amendment was written by our Forefathers to protect our 1st Amendment's God given rights/liberties [not government given privileges] of our choice of religion, free exercise of speech and press, to peaceably assemble, and express our grievances to the government. Chiseling away our 2nd Amendment is a direct lead to deteriorating our 1st Amendment.
