Measure: HB3390

As a long time fly tyer and fly angler, fly shop owner, guide and instructor I must oppose HB3390.

It will be a severe impact to the fishing industry in so many ways, and would have a negative impact to the economy in Oregon.

HB3390 is poorly written and makes little sense as written. It feels like something being pushed through in the hopes that it will sneak by for the special interest of a few, but that many Oregonians would oppose.

I am certainly all in for respecting animals. However, I feel HB 3390 is misinformed on how we in our industry work with fur and hair from legally sourced, sustainable hides.

HB 3390 is not the way we are going to find compromise with those who oppose all use of furs, hair and leather.

Respectfully,
