

Submitter: Bob Williams
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

Humans have been harvesting and using fur since the beginning of time. To pass this bill would be taking away a way of life that has existed in Oregon since before we were even a state. We allow using recreational marijuana, decriminalized drugs, encourage the homeless to build camps on our sidewalks and destroy the environment with their trash and human waste, and we encourage abortions, but harvesting animal fur is somehow wrong? I don't buy it. HB 3390 is just another bill attacking the outdoorsmen and women that the Portlandia folks detest so much. I don't go into Portland or Eugene and demand they adopt my way of life, it's time for them to stop trying to force their ways on me.
