

Submitter: Wallace Pindell

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I completely oppose of my rights and the right of others being taken way, for the sale and purchase of furs. this is a tradition and some people's way of life. taking away that right, is taking away a part our history and a passion and peoples way of living. so yes I oppose of this bill. I do belive people that agree with taking this right away do not understand and or do not value something that is so important and valuable to others in our community. so I ask that you take into mind what this will do and how it will affect so many families and individuals and how they live and thrive in this community. Thank you for your time.
