Committee: Senate Committee On Judiciary
Measure: SB348

As a law-abiding Oregon resident, I find the most recent amendments to Measure 114 appalling. Measure 114 all together is appalling. Criminals do not follow laws, yet I the law-abiding citizen do, and I'm the one being penalized by politicians trying to make amendments to Measure 114. At the last hour on a Friday night, Oregon politicians are trying to secretly include changes in this measure. This MUST STOP!!! Quit pushing your agenda.

As a US citizen, I have the right to protect myself and my family. This measure is misleading and extreme! If I'm already background checked here in Oregon as a concealed carry holder why do I need to further purchase a 'permit' to purchase a firearm? They already run my background if I purchase a gun in the state of Oregon. Why are we adding another financial burden to Oregon taxpayers?

Stop this madness! Stop playing games with Oregon residents!
