

Submitter: Robin Besotes
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

As a law-abiding Oregon resident, I find the most recent amendments to SB 348 appalling. Measure 114 and SB 348 together are appalling. Criminals do not follow laws, yet I the law-abiding citizen does, and I'm the one being penalized by politicians trying to make amendments to Senate Bill 348. At the last hour on a Friday night, Oregon politicians are trying to secretly include changes in this Senate Bill 348 - dropping a 64-page anti-gun bill! This MUST STOP!!! Quit pushing your agenda to create an unconstitutional permit to purchase. Furthermore, you are wanting to prevent young adults to purchase firearms. As a Veteran spouse, I'm sickened by this. We can have an 18-year-old serve in our military, but can't purchase a firearm in Oregon. What about kids who are trap shooters or hunters? They too won't be able to purchase a firearm. This is appalling!

As a US citizen, I have the right to protect myself and my family. This Senate Bill is misleading and extreme! If I'm already background checked here in Oregon as a concealed carry holder why do I need to further purchase a 'permit' to purchase a firearm? They already run my background if I purchase a gun in the state of Oregon. Why are we adding another financial burden to Oregon taxpayers?

Stop this madness! Stop playing games with Oregon residents!
