

Submitter: james michael KEARSEY

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Dear Sir or Madam:

I have been a member of the Dark Sky Association for over 10 years. The work they do is very necessary. Seen from above, the state of Oregon has some very open spaces with little light pollution, yet, without a change to the construction rules for public lighting, light pollution will continue to affect what we can see above us-- especially in the urban areas of the Willamette valley. Please make the right choice and we will start to give our children a chance to see the sky again.

Sincerely,

J. Michael Kearsey
