Committee: Senate Committee On Judiciary

Measure: SB527

This accomplishes nothing when considering where guns used in youth crimes come from. You already have safe storage requirements. Reducing the age of purchase is simply ageist rhetoric. Given the number of Progressives now purchasing guns, keep in mind that you are not doing this to Republicans who vote for your foes. You are doing this to people whom you may want voting for you later on. Or didn't you think of that?
