

Submitter: Bruce Miller

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

this bill is elitist, communities relying on natural resources will be marginalized and Oregon is already over regulated to the point where families living at or below the poverty line don't have the resources to feed and cloth themselves as you have already made it financially impossible for them to fend for themselves using the natural resources available to them

I Strongly Oppose this HB3390
