Committee: Joint Committee On Transportation
Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which will create standards to limit and mitigate light pollution across Oregon.

This is not a new concept, and in fact other states have already implemented such measures. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
