Measure: HB3202

Testimony in SUPPORT of HB 3202:

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Oregon should follow the lead of other states that have already taken this step. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
