

Submitter: Tyler Coleman

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

While this ban is most likely meant with good intentions, it does not accomplish these goals and only hurts industries which rely on sales of these products. From our industry, animal products are used in the creation of flies which we use for recreation. Oregon has a large community of anglers that would be negatively impacted by these restrictions if approved. I think there is a better way to present this bill with thought of those who would accidentally be impacted.
