

Submitter: Clair Klock

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

To the Oregon Legislature:

I am writing to urge your support of HB 3202 - when we moved to our house 40 years ago. Walking in the house at night was solid black. Today, we can walk inside the house without the lights on - that is how much the pollution has effected us. The bill will create standards to limit and mitigate light pollution across Oregon

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
