Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which will create standards to limit and mitigate light pollution across Oregon.

Many other states have taken such steps already. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
