

Submitter: Jacqueline Fowler  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB3202

"Dear Legislators,

I hope that you will be a yes vote for House Bill 3202, which seeks to mitigate the detrimental effects of light pollution on our environment.

House Bill 3202 builds on what other states have already done. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.

(I remember as a child looking up at the blanket of stars above my home in SW Portland -- now, I can barely make out the Big Dipper on the clearest of nights because of our human thoughtlessness. It saddens me greatly, that we've diluted such a beautiful mystery, one that should be available to everyone, everywhere).
