

Submitter: Christen Chandler
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I Christen M. Chandler do hear by strongly oppose this bill in it's entirety. It will do absolutely nothing to combat the gun violence problem. It's unconstitutional on every level. It's being rammed illegally through this Democratically controlled dictatorship. Measure 114 will be found unconstitutional and this Legislature knows it. This abhorrently racist and unconstitutionally bill is Floyd Prozanki's and Ellen Rosenblum's attempt around the Oregon and U.S. Constitution and they know it. They'll lose in the courts, but they don't care as long as they can dictate whether or not I have firearms at any level of harassment. Please, please do not pass this atrocity against my rights. I hope and pray that the Republicans will walk out and force this measure to fail on every level and every sentence. Thank you for your time, even though I'm sure that this, even if it's read, will go in one ear and out the other of the Dictatorship of the Democratic party. I'm sorry that this State is no longer the State of my youth and that people like Floyd and Ellen are allowed to do these kind of illegal and immoral acts. Normally I would address these people with respect of their title. I believe very strongly in that, but these people have disrespected the Constitution and our God given rights so much that I'll probably go puke when I'm done writing this.
