

Submitter: D Erwin

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

As a woman I strongly believe in the right to self defense through fire arms, this legislation is prohibiting my rights to access to that. it's also classist to charge so much money, the average person deserves accessibility to means for self defense not just the wealthy. I also believe maturity levels vary and many young people are responsible gun owners and there for an asset to an orderly society. You should not require people to be 21 when military age is 18.
