IN SUPPORT OF HB 3202

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

This is not a new concept, and in fact other states have already implemented such measures. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
