

Submitter: Lori Woolf  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB3202

Dear Legislators,

Please support House Bill 3202, in order to protect our ecosystem against the damages caused by light pollution.

Help keep Oregon the wonderful state it is, and protect our very valuable natural beauties!

This is not a new concept, and in fact other states have already implemented such measures. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.

Thank you so much for taking the time to consider this, and making a choice that helps our communities now and can only have good impacts in the future of our world!

Sincerely,

Lori Woolf
