Measure: HB3202

Testimony in SUPPORT of HB 3202:

I am writing to urge your support of HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Many other states have taken such steps already. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
