Measure: HB3202

Dear Legislators,

I am writing to urge your support of HB 3202, which will create standards to limit and mitigate light pollution across Oregon.

Many other states have taken such steps already. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
