

Submitter: Brian Weinhold

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I am disgusted in seeing how our Oregon legislators are subverting our constitutional rights at every turn. What happened to proposing bills and letting the public vote on them the right way? There is a process and you prove you are uninterested in us lowly peasants getting in the way of your agenda. I don't have any illusions that you care what I'm saying but add my testimony to yet another person opposing this horse* & #.
