

Submitter: Beatrice Ann Barkley  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

Thank you for accepting my written testimony regarding SB 348. I have been a long time advocate for gun safety and was very acting in obtaining Measure 114 qualifying signatures and passage by the voters. In the past, as a government administrator in California, I implemented many pieces of legislation successfully. With that background I know how important it is that the provisions of SB 348 are clear and fully support the provisions of the law passed by the voters.

Today more children were killed while in school by a shooter. Why in the world would anyone consider weakening the provisions of Measure 114 knowing that this will happen again and again until we pass laws, fund them and enforce them that stops the carnage?

Ann Barkley
