On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1070

I OPPOSE SB 1070

This bill could have unintended consequences that put the public in harm's way. If a person want to have abuse considered, they should prove their story by a lie detector test. Everyone has an abusive situation that can blow up. This bill adds the element of sentence into a psycho analysis of whether the person is being truthful. This is not well thought out.
