

Submitter: ANDREW HALL
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3513

Hello,

Please stop. This bill will not help Oregonians. The answer is to repeal SB941 that made illegal to store firearms with another person. I have previously provided this service to one of my friends, at his request, prior to the passage of SB941. When his issues were resolved, he collected his safely stored firearms. Now he is a CHL holder. The state of Oregon has been going downhill every year, less freedom, more bureaucracy and more people upset with the state legislature. Stop trying to pass laws to fix things that were broken by passing bad laws and repeal those laws causing the problems. The only answer is more freedom, not permission. More freedom builds more personal responsibility and then we can focus on helping the people that need it and deserve it and we can stop virtue signaling and actually help some people.
