Measure: SB348

Greetings to the Members and staff of the Senate Judiciary Committee. I would like now to voice my opposition to SB 348 and it's revisions. It seems to me and to many other Oregonians that SB 348 is a means to circumvent the judiciary process of M.114 as it's constitutionality is being challenged by the courts. And due to the court challenge of 114 I believe that the timing and wording of SB 348 is completely inappropriate, and if passed would be a travesty to our judicial system. Please consider the opposition to SB 348 and let the law take its course with measure 114. Thank you
