

Submitter: John Pineda
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

To whom it may concern,

Although I am not a resident of Oregon and with all due respect I believe this bill could possibly have ripple effects throughout our country and to our economy. With several companies that provide fly tiers, and anglers alike with products all over the world possibly in your state I feel there would be more detrimental effects than expected. For these reasons I would like to oppose this bill. I would like to see the Fly fishing community exempt from from this bill if it was to pass. Thank you for the opportunity to provide personal regards to this matter.

John Pineda,
