

Submitter: Mark Jones

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3513

I oppose HB 3515 and request that you not move this piece of legislation out of Committee. HB3515 looks to solve a nonexistent problem at Tax payers expense. If you want to make it easy for people with potential mental issues just amend the law, that prevents someone from letting a family member or friend store their firearms! WE DON'T need MORE Nanny State Legislation from the Legislature. Please do not move this legislation forward. Kill HB3515.
