

Submitter: Sylvan Scholl

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Last year my 3% cola on \$15.25 did not even cover the %10 increase on my rent which was only 800. That means even year the gap between my income increase and my rent increase will grow larger and larger. %10 rent increase every year is not sustainable and will continue to make more and more people homeless. %10 increase puts our vulnerable and elderly population at a huge risk of becoming homeless as well.
