

Submitter: Anne Liversidge

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

It is 2023 and it's time for this bill to be passed. Animal populations are dwindling everywhere so we need to preserve their habitat and not kill them for fur.

If this bill covers the end of fur farms, you must pass this bill. Fur farms are heinous and cruel and don't deserve a place in modern society. Wearing fur is selfish and out of fashion anyway. This bill would be a win for animals and the environment. Thank you for your consideration.
