

Submitter: Paul Furnari
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3513

Two wrongs don't make a right; this bill is a side effect of strict rules around firearms transfers. It makes more sense to fix those rules to address mental health holds than it does to create another government boondoggle with unintended consequences for law abiding citizens. The fact that hunter safety courses would have to be re-created is enough to earn my opposition.
