

Submitter: Erin Lamb
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

To the Oregon Legislature:

I hope that you will be a yes vote for House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

Many other states have taken such steps already. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
