Measure: SB348

My fellow Oregonians,

As a law-abiding citizen, a hunter, and a father of three, I am deeply concerned about the recent attempts to undermine our Second Amendment rights by misguided politicians and out-of-state interests.

These individuals are pushing for policies that would create bureaucratic hurdles and financial barriers, making it more difficult for responsible gun owners like myself to protect our families and loved ones. They want to implement measures like M114 and increase permit-to-purchase fees, which would only serve to infringe upon our constitutional rights and fail to address the root causes of gun violence. More laws won't prevent violence. Firearm statistics from Chicago prove that. We need to enforce laws that are already on the books.

What's worse, these policies are being pushed by out-of-state interests and politicians who do not understand our way of life here in Oregon. They do not understand that responsible gun ownership is a crucial part of our culture, and that we take the safety of our families very seriously.

We cannot let these outsiders dictate our laws and threaten our way of life. We must stand together as proud Oregonians and fight for our Second Amendment rights. We must make our voices heard and show these politicians and outside interests that we will not be silenced.

As a father, I am deeply concerned about the safety of my children and loved ones. I know that responsible gun ownership is the key to keeping them safe, and I will not stand idly by while politicians and outside interests try to take away our rights.

I urge all Oregonians to join me in this fight. Let us stand together and show these outsiders that our Second Amendment rights are not up for debate. Let us make it clear that we will not allow them to undermine our way of life or threaten the safety of our families.

In conclusion, I urge you to join me in standing up to these misguided politicians and out-of-state interests. Let us fight for our Second Amendment rights and protect our families and way of life here in Oregon. Together, we can make a difference and ensure that our voices are heard.
