Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please support House Bill 3202, in order to protect our ecosystem against the damages caused by light pollution.

House Bill 3202 builds on what other states have already done. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
