

A wolf killed a sheep. The remaining sheep noticed the wolf used his teeth to kill the sheep. So they decided to pull their own teeth because obviously teeth are the problem. Wrong. It was the wolf!

I read that Senator Rand Paul staffer was stabbed multiple times in DC. Are we to expect knives to be next on the list of things to eliminate? No. It is only the evil guns. This legislature is determined to make it so difficult that no one can own or carry a gun without breaking a law. It is the wolf that needs to be dealt with, not the gun owners of Oregon.

Please stop with SB-348 and the attacks on magazines, etc. and address the mental health issues of why people use guns, knives, hammers, and whatever to hurt or kill their fellow man.
