

Submitter: Marie Valleroy
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

Dear Oregon Legislators:

I strongly urge you to support and pass HB 3202, to help curtail the waste and damage created by light pollution. Excessive lighting at night poses threats to wildlife as well as human health and safety.

Let Oregon join with other states that have implemented such measures. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as our fellow Oregonians.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.

Thank you.
