

Submitter: Karen Calcagno

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I oppose bill SB 348-1.

Firearms obtained and used legally is not a bad thing. Of course if you are a criminal or a mentally insane person who wishes to do harm or to control the population then I can see how one would want this to pass. Because no one would be able to legally protect themselves, their family or property. As is happened before and currently in oppressed countries. We, are not oppressed. We have many good, hard working, mentally sane citizens in the state of Oregon who must feel protected, and we have our constitutional right to do so.

Vote no on this.

Thank you.
