

Submitter: Claire Snyder

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB320

Mandatory minimum sentencing is an inhumane practice that serves only to increase the number of people wasting away in prisons and in fact leads to more and worse crime after people serve their time. Drug users are the people bearing the racist impact of mandatory minimums, rather than receiving actual support to change their relationship to drugs. End this practice for the sake of all of us. It doesn't "help" anyone and is a disgusting practice.
