

Submitter: Brian Davenport

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

This is in regards to House Bill 3390. Please do not pass this bill or at least grandfather in current business. Oregon has a very long and rich history in fly fishing and fly tying as well as several businesses that count on this industry to make a living one of the largest suppliers of fly tying materials is located in Oregon. Do not give in to the pressure of animal rights groups to take away a sport and jobs of outdoor loving folks.

Thank You
