

Submitter: N H

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

This will prevent every individual who ties flies in the PNW from pursuing their hobby in the sport of fly fishing. There MUST be exception for fly anglers and fly tying. The fly fishing community is one rooted in conversation and protection. We do everything we can to protect the land and waters we fish on. This completely undermines half of what goes into our sport and will ruin the relationships many anglers have created since starting this sport.
