Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB2659

CEFC is necessary to push our cities to become more walkable and bikeable, making them more pleasant, fiscally sustainable, and reduce carbon emissions. Local cities demand local control, yet history has shown that they will not make progress on these issues without a state mandate. CEFC is not perfect, but is far better than the alternative: business as usual.
