Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please support House Bill 3202, which seeks to mitigate the detrimental effects of light pollution on our environment.

Many other states have taken such steps already. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
