Measure: HB3390

This bill will have lots of unintended consequences and helps nobody. Oregon is internationally famous for its wonderful fly fishing. It drives alot of tourist dollars into our state. It is also one of the reasons that I reside in Oregon. This bill will kill all of that. We will not be able to tie or sell flies to support the tourist and residents that are here to fish. How would this help anyone? Why is fur products any different than meat products.
