Measure: HB3202

IN SUPPORT OF HB 3202

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which can help curtail the damage done by light pollution to wildlife as well as human health.

Oregon should follow the lead of other states that have already taken this step. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.
