

Submitter: Kris Guptill  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB3202

To Oregon Lawmakers:

Please support of HB 3202! It is so important to reduce the damaging effects light pollution has on wildlife, not to mention humans.

Oregon should follow the lead of other states who have already implemented these measures. Light pollution disrupts natural ecosystems impacting animals' feeding habits, migration, and predator/prey relationships.

It is incumbent upon us to be good stewards to our natural environment and to protect our night skies!
