Measure: HB3202

IN SUPPORT OF HB 3202

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which can help curtail the damage done by light pollution to wildlife as well as human health.

This is not a new concept, and in fact other states have already implemented such measures. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
