

Submitter: Daniel Smith
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

Back in my earlier days I worked with land owners and farmers to control animal populations that were damaging. It was hard work but there was a small exchange for that labor and it was when u got to sale your furs .Spending time in the outdoors and learning about nature was a value to me and taking away a oppportunity to get some reward for it is disappointing. What would the timber industry do if they can cut trees down but can't sale there logs in our State of Oregon .Also will this bill involve tanned fur that affects
