

Submitter: Gus deVries

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB270

There are many, many law-abiding young and old adults who cannot afford to go to Community College. It makes no sense to reward a convicted person for bad behavior. If a convicted person serves out their penalty for their crime against a civilized society then is released to the public they have every opportunity to attend community college just like every other citizen of Oregon. This non-sense has to stop.
